

AWARDS WE'VE WON

Our passion for organic agriculture, sustainability and the welfare of our planet extends beyond the fences of our vineyard, our valley, and our country. We are few in number, but we do what we can. Our proceeds benefit environmental causes.

We are a small, family-owned organic vineyard. We produce memorable, award-winning wines by hand, characterized by bright, ruby colors, saturated with purple undertones, moderate tannins, and aromas of red fruit, cassis, spices, and floral notes.
